As part of the promotional activities of newly accredited and upgraded master degree programmes for the purposes of employees in public administration, one-hour promotional workshops were held on Monday and Tuesday (11 and 12 June 2018) in the premises of the Ministry of Public Administration and Local and Local Self-Government in Belgrade.

The objective of the promotional activities was to disclose information on enrollment conditions, student ranking criteria and contractual obligations of students after enrolling on master degree programmes to all interested employees in public administration engaged in financial management, control, accounting and auditing activities.

The interest of employees in public administration was at a high level and it is expected that there will be a great demand for both master programs presented at that occasion.

The programs presented are the program of University of Belgrade - Faculty of Organizational Sciences: *Financial Management, Control and Managerial Accounting* and the program The Belgrade Metropolitan University – *Economics*.
