One-hour promotional workshops were held on Friday (6 July 2018) in the Ceremonial Hall of the State University of Novi Pazar. This workshop held as part of the promotional activities of newly accredited and upgraded master degree programme Capacity building for Public Administration.

The objective of the promotional activities was to disclose information on enrollment conditions, contractual obligations of students after enrolling on master degree programme and student ranking criteria to all interested employees in public administration engaged in public administration, new public management and e-government.

The interest of employees in public administration was at a high level and it is expected that there will be a great demand for master program presented at that occasion. The programs presented are the program of State University of Novi Pazar – **Capacity building for Public Administration**.
